

European Convention on Ayurveda

June 2 - 6, 2010

TOPICS

- Workshops and intensive seminars in small groups with top Vaidyas
- Lecture from the world famous quantumphysicist Prof. Herbert Pietschmann
- Seminar on the classical Ayurvedic remedies
- Advanced training course B4 (for graduates of the DGA-Academy A-courses)
- Seminar for beginners: Training of Ayurvedic health consultants
- Annual general meeting of the DGA

Dear friends of Ayurveda,

Starting with this years annual general meeting from June 2 through June 6 we will begin a new tradition—that of the European Ayurveda Conventions. These conventions will be characterized by being very practically oriented. And we plan to begin spectacularly!

Wonderful location

To begin with we have chosen a beautiful location for our convention where we can experience the irresistible charm of early summer unfolding. We have chosen a seminar hotel, at a sensationally good price, at the lakefront of Lake Starnberg near the castle Possenhofen.

3 TOP VAIDYAS

Our main attraction is that we have invited three experienced vaidyas for these days. Dr. Raju, who is our great expert in pulse diagnosis, Dr. Lavekar, a renowned expert in Dravyaguna and Dr. Kalyan, who has gained a tremendous amount of experience dealing with current ailments in Western Europe and applying effective therapies against them. In small rotating workshop groups we will deal with three topics which are completely practically oriented:

1. Digestive tract and metabolism
2. Skin and allergies

3. Gynaecological disorders

Each of the three vaidyas will discuss diseases from these three topics with us from the point of view of pulse diagnosis (Dr. Raju), herbal medicine (Dr. Lavekar), and the holistic Ayurvedic therapeutic approach (Dr. Kalyan). These small, intimate workshop groups will offer each participant the opportunity for with our Indian physicians as well as personal questions. Of course the extended in the plenum each day, so

intense interdisciplinary interchange providing the occasion for very discussion will be continued and that nobody misses anything.

Veda Preparations

An additional focus in these three days will be a deeper understanding of the Veda products. These preparations have their origin in classical formulations of the Asthanga Hridya, one of the six great Ayurvedic textbooks, and have been preserved throughout the centuries by the tradition of the Athavaidyas. Dr. Barbara Grandpierre, who spent several months with an Asthavaidya in Southern

India and was one of the pioneers of Maharishi Ayurveda, will share her expertise of these Veda preparations.

Ayurvedic Health Consultant
For all non-physicians interested in an initial training in Ayurveda, the academy of the DGA (German Association for Ayurveda) will offer a special, credited introductory seminar for training as an Ayurvedic health consultant. A variety of interesting fields of activities and possibilities for

working in cooperation with Ayurvedic physicians is open to an Ayurvedic health consultant with this training.

A Star of Science

One of the highlights of this event is the exceptional guest speaker, Prof. Dr. Herbert Pietschmann. As well as authoring numerous bestsellers, he was a member of the world's elite in theoretical physics and is regarded as one of the rare polymaths. He will be giving a lecture on the topic: "Medicine – A Discipline between Natural Science and Art." Anyone who knows him will confirm that it is a real treat to listen to him.

Celebration

Of course there will also be time to relax during these intense days. And we will not forget celebration culturing a sophisticated get-together.

A detailed program will be sent to you soon.

As the number of rooms in the seminar hotel is limited and we are expecting many colleagues from different countries we would like to ask you to confirm your binding registration by April 15, 2010.

The course fee including accommodation, full board and Ayurvedic meals is €880.

We look forward to hearing from you soon.

Your German Association for Ayurveda
